

Confined Spaces Can Kill!

Make sure you know all of the appropriate procedures and precautions to take for entry into and exit from confined spaces. If there are hazardous confined spaces where you must work, your employer is required by law to have a permit-required confined space program, permit system, emergency procedures, appropriate engineering and work practice controls and to provide you with training and appropriate personal protective equipment. See OSHA's standard on confined spaces

in Title 29 of the *Code of Federal Regulations*, Part 1910.146. For related OSHA publications, contact your regional or area office, or call (202) 219-4667, FAX (202) 219-9266.
